Introduction to the 2012 SurveyWorks School Report

This School Report presents results from the **2012 SurveyWorks Student, Parent, and Teacher/Staff Surveys** for this school. Results from the 2012 SurveyWorks School Administrator Survey are provided in a separate report. The surveys gather input from students, parents, and teachers and other staff on elements of Rhode Island's Basic Education Program (BEP) including:

- Teaching and Student Achievement;
- Families and Communities;
- Safe and Supportive Schools; and
- Funding and Resources.

The results are reported for each of these categories. These data are intended to be used to inform decisions at all levels-including the classroom, school, district, and state.

The report is organized into three sections by survey population. Section 1 reports the findings from the Student Survey. Section 2 reports the findings from the Parent Survey. Section 3 reports the findings from the Teacher/Staff Survey.

The findings are reported in tables showing the total number and percentage of individuals answering each item by school (or by district) and at the state level. The survey allowed individuals to skip over questions that did not apply to them or that they did not wish to answer. Therefore, the number of responses to any one question may vary. In order to protect individuals' rights to confidentiality, data for items with fewer than ten responses are not reported. In these cases, a dash (-) indicates that there are insufficient responses to report.

Participation Rates

The percentage of eligible individuals responding to each survey is an important piece of information when examining survey results. The participation rate for schools that were not eligible or exempt is reported as "N/A". Low participation rates suggest that data should be interpreted with caution. Participation rates for this school, by survey, are indicated in the table at the right. Participation rates for the Student Survey are based on the school's average daily enrollment between October 1, 2011 and March 12, 2012 for the applicable grades. The Parent Survey participation rate is based on the number of unique mailing addresses for students enrolled in a school. The Teacher Survey participation rate is based on two data sources. School principals were asked to provide the number of teachers and instructional staff. For those schools that provided the data, these numbers are used. For schools that did not provide this information, staffing data are provided by the Rhode Island Department of Education.

Participation Rates		
	This School	Statewide
	%	%
Student Survey (Grade 9-12)	93.3	77.4
Parent Survey	4.3	20.8
Teacher Survey	70.0	48.0

Navigating the Report

This report contains several navigation features. The Table of Contents contains active links to each of the main sections of the report. The Table of Contents for each section contains active links to subsections based on BEP category.

In addition, some pages have navigation buttons that allow the reader to see how a different survey population responded to a similar topic. For example, the page displaying students' responses to questions about teacher practices contains a navigation button that links to teachers' responses about teacher practices.

Data

Data files are available upon request. Please contact surveyworks@wested.org for more information. Survey results and related education data can be found on the RIDE InfoWorks website, <http://infoworks.ride.ri.gov>.

Section 1: Student Survey Introduction

In January 2012, public school students in grades 4-12 were invited to participate in the SurveyWorks Student Survey. Different versions of the Student Survey were used at the elementary (grades 4-5), middle (grades 6-8), and high school (grades 9-12) levels with age appropriate language and content for each group. This section of the report presents the high school Student Survey results for this school. Please note that many schools have students in more than one of these grade spans. These schools have more than one report.

The Student Survey was administered online in Rhode Island public schools from January 31, 2012 through March 30, 2012. To prevent unauthorized access to the survey and multiple entries, students used a randomly generated 7-digit access code distributed by the SurveyWorks Site Coordinator. To guarantee anonymity, students' personal information was not associated with the access codes.

This section of the report presents the students' responses. Data are provided for this school as well as for all students in comparable grades in Rhode Island. Responses are reported as the percentage of students who responded to each item and the total number of the students answering each item by school and across the state. In order to ensure anonymity, data for items with fewer than ten responses are not reported. In these cases, a dash (-) indicates that there are insufficient responses to report.

As noted in the introduction to the report, **this school's Student Survey participation rate is 93.3%**. The participation rate is calculated as the number of students who responded to the survey as a percentage of the total average daily enrollment of the school between October 1, 2011 and March 12, 2012 for the applicable grades.

In some cases, a school did not participate in the Student Survey. In these instances, an exclamation mark (!) is used in the report tables to indicate that a school did not participate and only state level data are reported.

Section 2: Parent Survey Introduction

In January 2012, parents/guardians of students at all public schools in Rhode Island were invited to participate in the SurveyWorks Parent Survey. The Parent Survey was administered online and on paper from January 5, 2012 through March 30, 2012.

Parents who had multiple students in a school were instructed to answer the survey only once based on his or her experience with the oldest child. Surveys were conducted anonymously. The Parent Survey asked about: the school facility and learning environment, school resources and activities, parent involvement, school-family communication, school safety, and college and career readiness issues.

This section of the report presents the parents' responses. Data tables are provided for this school as well as for parents statewide in Rhode Island. Responses are reported as the percentage of parents who responded to each item and the total number answering each item by school and across the state. In order to ensure anonymity, data for items with fewer than ten responses are not reported. In these cases, a dash (-) indicates that there are insufficient responses to report at the school level.

As noted in the introduction, **this school's Parent Survey participation rate is 4.3%**. The participation rate is calculated as the number of Parent Surveys received as a percentage of the total number of unique student addresses for the school. This method of counting families is more accurate than the total number of students in a school, but may overcount some families and undercount others. Data from schools with low participation rates should be interpreted with caution.

Parent Survey results are not included for any school where the total Parent Survey participation rate was less than ten percent. In these cases, a tilde symbol (~) is used in the data tables to denote that an insufficient participation rate was received for this school and that data are not reportable at the school level. In these instances, only state level data are reported.

In some cases, a school did not participate in the Parent Survey. In these instances, an exclamation mark (!) is used in the data tables to indicate that a school did not participate and only state level data are reported.

Section 3: Teacher/Staff Survey Introduction

In January 2012, teachers and staff with direct instructional responsibility at all public schools in Rhode Island were invited to participate in the SurveyWorks Teacher/Staff Survey.

The Teacher/Staff Survey was administered online from January 31, 2012 through March 30, 2012. To prevent unauthorized access to the survey and multiple entries by one individual, teachers/staff were required to login with a randomly generated 7-digit access code distributed by the SurveyWorks Site Coordinator. To guarantee anonymity, personal information was not associated with the access codes.

This section of the report presents a series of tables created from the Teacher/Staff Survey responses for this school. To maintain the anonymity of survey participants, teacher/staff responses to demographic questions are grouped and presented at the local education authority (LEA) level and not reported at the school level. The demographic data for teachers from district-authorized charter schools are reported with their districts. Demographic data for teachers from state-operated schools and state-authorized charters are reported together. Responses to all other items are reported at the school level, as the percentage and total number of teachers/staff who answered each item at this school, as well as statewide.

In order to ensure anonymity, data for items with fewer than ten responses are not reported. In these cases, a dash (-) indicates that there are insufficient responses to report at the school level.

As noted in the introduction, **this school's Teacher/Staff Survey participation rate is 70.0%**. The participation rate is the number of teachers/staff who responded to the survey as a percentage of the eligible teachers/staff at this school. The number of eligible teachers/staff come from one of two data sources. School principals were asked to provide the number of teachers and instructional staff. For those schools that provided the data, these numbers are used. For schools that did not provide this information, staffing data are provided by the Rhode Island Department of Education.

In some cases, a school did not participate in the Teacher/Staff Survey. In these instances, an exclamation mark (!) is used in the data tables to indicate that a school did not participate and only state level data are reported.
